Columbus, OH - 43201, USA

CV last updated: Oct 2025

CAREER OBJECTIVE

My research has focused on developing unsupervised deep learning image reconstruction methods for motion-robust accelerated real-time cardiac MRI to streamline image acquisition and reconstruction processes. I am passionate about advancing medical imaging technology using advanced AI techniques, with the ultimate goal of enhancing patient care through my imaging developments.

RESEARCH EXPERIENCE

- **Graduate Research Associate @ Cardiovascular Magnetic Resonance Lab**  Aug 2022 – Present
The Ohio State University, Columbus, OH, USA
 - Developed DISCUS, a self-supervised deep learning reconstruction framework, enabling accelerated dynamic MRI reconstruction by combining deep image prior and manifold discovery, demonstrating improved diagnostic image quality for single-shot free-breathing LGE. | [Paper](#) | [Code](#)
 - Extending ML-DIP framework, a multi-dynamic low-rank DIP, to motion-robust volumetric LGE, integrating Dixon fat-water modeling for multi-echo and joint sensitivity maps estimation, for accelerated ~5-minutes iNAV acquisition, with better arrhythmia handling. | [Cine ML-DIP Preprint](#)
- **Research Assistant @ Signal, Image & Video Processing Lab** Aug 2021 – July 2022
Lahore University of Management Sciences, Lahore, Pakistan
 - Developed a machine learning pipeline for a "Vitals Monitoring System" using only PPG signal, engineered features, applied regression for cough-less blood pressure estimation, integrated vitals in a fingertip oximeter, enabling continuous and non-invasive monitoring with one wearable sensor. | [Paper](#)

EDUCATION

- **Ph.D. Biomedical Engineering | Post-candidacy** May 2027
(Expected)
The Ohio State University, Columbus, OH, USA
 - GPA: 3.90/4.00
 - Advisor: Rizwan Ahmad, Ph.D., Lab: Cardiovascular Magnetic Resonance Lab 
 - **Research Focus:** Development of self-supervised deep learning methods for accelerated cardiac MRI reconstruction to improve image quality, reduce scan time, and streamline acquisition workflows.
- **M.S. Biomedical Engineering** Dec 2024
The Ohio State University, Columbus, OH, USA
 - GPA: 3.90/4.00
 - **Relevant Coursework:** MR Spectroscopy & Imaging, Medical Imaging & Analysis, Optimization, Probability Theory, Reinforcement Learning
- **B.S. Electrical & Computer Engineering | Gold Medalist** May 2021
University of Engineering and Technology, Lahore, Pakistan
 - GPA: 3.90/4.00, Class Rank: 1/200
 - **Relevant Coursework:** Signal Processing, Machine Learning, Calculus, Linear Algebra, Embedded Systems

SKILLS

- **Research Areas:** Image Reconstruction, Unsupervised Deep Learning, Signal/Image Processing, Inverse Problems
- **Languages:** Python, MATLAB, C, SQL, Verilog
- **Libraries:** Pytorch, Tensorflow, Keras, Scikit-learn, Numpy, Pandas

JOURNAL PUBLICATIONS

- C. Chen, M. Vornehm, P. Chandrasekaran, **M.A. Sultan**, et al. "A multi-dynamic low-rank deep image prior (ML-DIP) for real-time 3D cardiovascular MRI." Under-review at *Journal of Cardiovascular Magnetic Resonance Imaging (JCMR)*. | [Preprint](#)
- M. Vornehm, C. Chen, **M.A. Sultan**, et al. "Multi-dynamic deep image prior for cardiac MRI." *Magnetic Resonance in Medicine (MRM)*, 94 (6): 2668-2679, July 2025. | [Paper](#) | [Code](#)
- **M.A. Sultan**, C. Chen, et al. "An unsupervised method for MRI recovery: Deep image prior with structured sparsity." *Magnetic Resonance Materials in Physics, Biology and Medicine (MAGMA)*, 38: 859-871, May 2025. | [Paper](#) | [Code](#)

PEER-REVIEWED ABSTRACTS & POSTER PRESENTATIONS

- **M.A. Sultan**, et al. "A motion-robust dual-echo 3D LGE reconstruction framework." Under-review at *Journal of Cardiovascular Magnetic Resonance Imaging (JCMR)* for **SCMR 2026** Annual Scientific Sessions.
- C. Chen, **M.A. Sultan**, et al. "FlowDIP: Real-time phase-contrast MRI reconstruction with flow-conditional deep image prior." *Journal of Cardiovascular Magnetic Resonance Imaging (JCMR)*, 27: 101504. Presented at **SCMR 2025** Annual Scientific Sessions, Washington, DC. | [Link](#)
- **M.A. Sultan**, et al. "Deep image prior with structured sparsity for dynamic MRI reconstruction." 2023 *ISMRM & ISMRT Annual Meeting & Exhibition*, Toronto, Canada. | [Link](#)

INVENTIONS & PATENTS

- R. Ahmad, C. Chen, **M.A. Sultan**, & S.M. Arshad, "3D real-time cardiovascular magnetic resonance imaging (CMR)." Patent application in progress, OSU started filing on Sept 2025.
- R. Ahmad, M. Vornehm, C. Chen, **M.A. Sultan**, et al. "Systems and methods for dynamic image reconstruction." Patent pending, filed on Nov 2024, Application number: 63/716,363.

FUNDING, HONORS & AWARDS

- **Member – SCMR**  July 2025 – Present
Society for Cardiovascular Magnetic Resonance Imaging
- **NIH-funded PHD Position – Cardiovascular Magnetic Resonance Lab**  Aug 2022 - Present
The Ohio State University, Columbus, OH, USA
 - Secured a fully-funded GRA Position in CMR Lab by contributing to several advisor's grants.
- **Tutor – AI Introductory Class** Mar 2022
Lahore University of Management Sciences, Lahore, Pakistan
 - Tutored three undergraduate students in foundational AI concepts as part of an introductory course.
- **Academic Excellence – Gold Medalist** July 2021
University of Engineering and Technology, Lahore, Pakistan
 - **Awarded 5 gold medals** for highest departmental GPA across semesters.
- **Merit Scholarship – Top 5 Students** 2017 – 2021
University of Engineering and Technology, Lahore, Pakistan
 - Dean's merit scholarship awarded to top 5 undergraduate students each semester.
- **Best Semester Project – ML Class** Dec 2020
University of Engineering and Technology, Lahore, Pakistan
 - Recognized for top project "NLP-based Fake News Detector" for machine learning class.
- **Sports Tournament – Best Player Award** Mar 2019
University of Engineering and Technology, Lahore, Pakistan
 - Best bowling performance and led the champions team in Cricket tournament, ElectroCup2k19.
- **Merit-based Laptop Award** May 2017
 - Awarded a Dell laptop by Government of Punjab, Pakistan, for outstanding high-school performance.
- **Merit-based Scholarship Award** 2015 – 2017
 - Placed in Super-section, Punjab Group of Colleges, Lahore for maintaining outstanding high-school performance.

VOLUNTEER WORK

- **Poster Presentation: "Motion-robust self-supervised reconstruction framework for LGE."** Oct 2025
The Ohio State University, Columbus, OH
 - Presented a poster from BME at the Graduate Engineering Research Symposium for undergraduate students.

CERTIFICATIONS

- **Computer Vision & NLP Projects** July 2020
 - Completed **3 projects** using keras and scikit-learn: twitter sentiment analysis (NLP), house price prediction (regression), and image classification with data augmentation & transfer learning. | [Coursera](#)
- **Deep Learning Specialization by Andrew Ng** May 2020
 - **5-course** track covering neural networks, CNNs, sequence models, hyperparameter tuning, and model optimization with hands-on programming assignments. | [Coursera](#)

WORKSHOPS & SEMINARS

- Attending **weekly seminars** in BME department at The Ohio State University. Aug 2022 – Present
- Attended **Research Enhancement Sessions** on IEEE Xplore database & publications at EE, LUMS. Jan 2022
- Participated in NVIDIA Deep Learning Workshop on **Accelerated Data Science** held at EE, LUMS. Dec 2021

ADDITIONAL INFORMATION

Languages: English, Urdu, Hindi, Punjabi

Interests & Activities: Cooking, reading scientific articles, media analysis, data storytelling (memes)
